

PCN Title	EXO series production expansion		
Affected Products	EXO series		
PCN Number	PCN2026-03-26	PCN Issue date	26.03.2026
Contact	Inside Sales Team		

Change Classification

Major

Change Type

Additional Manufacturing location (assembly, final test, calibration, packaging and shipment)

Affected Products

All EXO products (all models, options, housing variants, and customer-specific versions) – please refer to full list of the standard productions in the Annex. Derived customer-specific models are also affected but not explicitly listed.

Change Description

Production of EXO products will be located at following production site:

Original location:

Allied Vision Gilching
Ferdinand-Porsche-Str. 3
82205 Gilching, Germany

Additional location:

Allied Vision Technologies Canada Inc.
4621 Canada Way #300
Burnaby, BC V5G 4X8, Canada.

Scope includes assembly, calibration, final test, labeling, packaging, and shipping.

Reason for Change

- Improve delivery reliability and lead-time performance for customers.
- Optimize global logistics, increase manufacturing resilience and business continuity through geographic diversification.
- Align production capacity with demand while maintaining consistent quality and compliance.

Impact / Possible Successor

- **Form, fit, function, and performance:** No changes to product design, materials/BOM, specifications, firmware or test.
- **Ordering:** Part numbers, configurations, and pricing remain unchanged.
- **Labeling and documentation:**
 - **CE/Manufacturer address:** Allied Vision Gilching GmbH remains the manufacturer/contact address on the product/packaging and in the EU Declaration of Conformity.
 - **Country of Origin:** Units produced in Canada will reflect Country of origin on product and/or packaging where applicable. Origin marking is independent of CE labeling.
 - **Certificates and declarations:** Existing regulatory and environmental compliance (e.g., CE, FCC, RoHS/REACH) remains valid; documentation will be updated only where a manufacturing site address is referenced.
- **Quality and warranty:** Unchanged. The Canadian site will use equivalent equipment, validated processes, and the same work instructions and control plans under Allied Vision's corporate QMS (ISO 9001).
- **Logistics:** There may be mixed origin shipments (Germany and Canada).
- **Traceability:** Serial number format remains unchanged; internal records maintain full site traceability.
- **Customer action:** No action required.

First Ship Date

Starting end of April 2026

The information provided in this PCN notification are subject to change without notice.
